# GASLIGHTING

- Gaslighting is a form of psychological abuse that causes someone to question their own sanity, memories, or perception of reality.
- It is a covert type of emotional abuse that often occurs in abusive relationships.
- The victim of gaslighting may feel confused, anxious, or as though they cannot trust themselves.
- Gaslighting is also known as coercive control and historically referred to extreme psychological manipulation to commit an individual to a psychiatric institution or cause mental illness with the intent to brainwash.
- In contemporary language, gaslighting is a colloquialism describing the subjective experience of having one's reality repeatedly questioned by another.

## Earth's Thermodynamic Energy Budget

Kiehl, J.T. and K.E. Trenberth, 1997: Earth's Annual Global Mean Energy Budget. *Bull. Amer. Meteor. Soc.*, 78, 197-208,

## Spherical Earth

Hot sun, at 1 a.u.;  
 Direct solar input  $+121^\circ\text{C}$ ;  
 Sun creates climate;  
 Heat flows hot to cold only;  
 Day & night;  
 Rotating Earth;  
 Adiabatic effect causes lapse rate;  
 Earth's effective temperature is Earth output only;  
 "crank science"

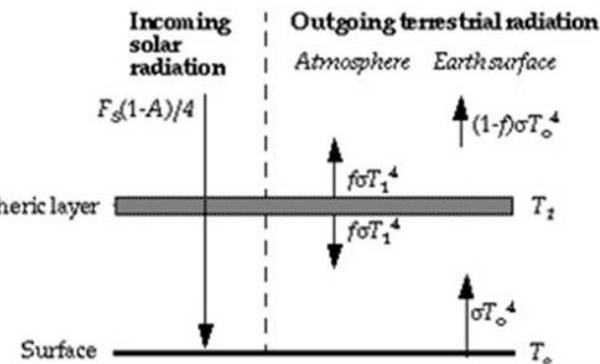

## Flat Earth

Cold sun, at 2 a.u.;  
 $1/4$  solar input  $-18^\circ\text{C}$ ;  
 Sun cannot create any climate;  
 Heat flows cold to hot to create climate;  
 No day or night;  
 Static flat Earth;  
 Backradiation causes lapse rate;  
 Earth's effective temperature is solar input, also Earth output;  
 Peer-reviewed & pedagogical climate science;

$-18^\circ\text{C}$  Aggregate Radiative Output  $\sim 240 \text{ W/m}^2$   
 (Effective Blackbody Temp.)

E.D.: "Joe: You are dangerous and ill informed. Words cannot communicate my disrespect for your position regarding sphere Earth."  
 R.S.: "The sunlight intercepted by the Earth *does get spread* over the full sphere of the Earth. That is basic geometry."  
 S.S.: "His "spherical Earth theory" fits every definition of a crank theory. It's obviously absurd, violates known laws of physics, and is propped up by Postma's ego, rather than evidence."

# PSYCHOLOGICAL WARFARE

- “The proposed spherical model is incomplete and quite wrong in so many ways.” re: *That the Sun creates the climate*: “This is nonsense.”
- “there should be some solid theoretical evidence provided to support your proposed idea was a better method which should lead to some scientifically significant results.”
- “no compelling evidence or analysis for a new approach or model; much more extensive underpinnings are required for new scientific claims”
- “Our journal deals with subjects that would be adequate for university-level teaching, not with scientific quarrels or alternate interpretations one might conceive like you mention.”
- “I believe that your approach should first be vetted by experts who could validate or invalidate it.”
- “The arguments made for consideration of an alternative mean energy budget model are ad-hoc and without justification or mathematical rigour.”

# SUSPENSION OF DISBELIEF

- The avoidance (possibly willing) of critical thinking and logic in understanding something that is unreal or impossible in reality
  - This is how we are able to enjoy movies/books/sci-fi/etc.
- We live this way in regard to our perceived existence itself
  - Ever question whether any of this is supposed to exist, any knowledge valid at all? What's the point? The Matrix? Assume you're lied to, captured, etc.
- **When scientists are universally coordinated in denying spherical Earth/hot Sun w.r.t. climate science, it is no longer believable...this is not a "movie" but IRL...unbelievable IRL**

# THE ENEMY'S M.O.

- Scientists: strangely *infinitely resistant* to rational & obvious demonstrations that the RGHE is flawed and does not work or exist
  - really really really badly want to keep supporting it and pretending that it's legitimate
- Policy Makers: strangely *infinitely resistant* to alternative policy solutions not requiring solar radiation management & geo & strato & bio engineering (removing CO<sub>2</sub> & Sunlight)
  - really really really badly want to do these things to the Earth, given the RGHE justification
- Conclusion: **there is an enemy which plans to end photosynthetic life on Earth**

  - “SRM {“solar radiation management”} offers the possibility of cooling the planet significantly on a timescale of a few years.”
  - “Politicization around climate change has obviously been the huge driver” of policy gridlock on reducing carbon emissions, she said. “And so I think trying to avoid politicization around geoengineering is also important.”
  - “Policymakers in the European Union have signaled a willingness to begin international discussions of whether and how humanity could limit heating from the sun.”
  - “Climate change is already having profound effects on the physical and natural world, and on human well-being, and these effects will only grow as greenhouse gas concentrations increase and warming continues,” the report said. “Understanding these impacts is crucial to enable informed decisions around a possible role for SRM in addressing human hardships associated with climate change.”
  - “European Union leaders opened the door to international discussions of SRM. It also followed a call by more than 60 leading scientists to increase research on the topic.”
  - “This report also signals that the U.S. government is supportive of well-governed research, including outdoor experimentation, which I think is quite significant.”
- From the timesofisrael.com:
  - “In possible climate breakthrough, Israeli scientists engineer bacteria to eat CO<sub>2</sub>.” “Decade-long research at Weizmann Institute could pave way remove excess global warming CO<sub>2</sub> from air.” “In a remarkable breakthrough, researchers at the Weizmann Institute have produced a genetically engineered bacteria that can live on carbon dioxide rather than sugar.”
- From the U.S.A. President Biden’s “climate envoy”, Senator John Kerry, on carbon dioxide:
  - “Even if we get to net zero, we still have to get carbon dioxide out of the atmosphere.”
- From Bloomberg Business:
  - “What if We Blotted Out the Sun to Fight Global Warming? “Cutting off sunlight to fight climate change could be necessary”.

  - “the idea is to build something that would stay between us and sun all year long...” – at the Lagrange point between Earth & Sun
  - “This is one of the most ambitious, but also one of the sanest, options we could possibly consider when it comes to combatting global climate change.”

# WHO IS THE ENEMY?

## NPC'S, AI'S, & FORUMS

- They look and are assumed to act just like real humans
  - But they're not. Appearance is deceiving; ***action & behaviour is not***
  - Use the glasses of reason to see (ex. scientists & F.E. RGHE; mothers & DQSH)
- Generally, anyone who follows any of the mainstream narratives:
  - Pro pharmaceutical & hospital healthcare: vaxx/pills/disease/allergies/doc visits
  - Deny relevance & importance of diet & Natural Hygiene
  - Academia & education professionals; Scientism; climate change; IFLS;
  - Politicians & police who protect/support them/enforce their policies
  - Supporters of democracy/voting/equality/equity/inclusion/multiculturalism
  - Fat/body positivity, critical race/gender theory supporters, anti-White

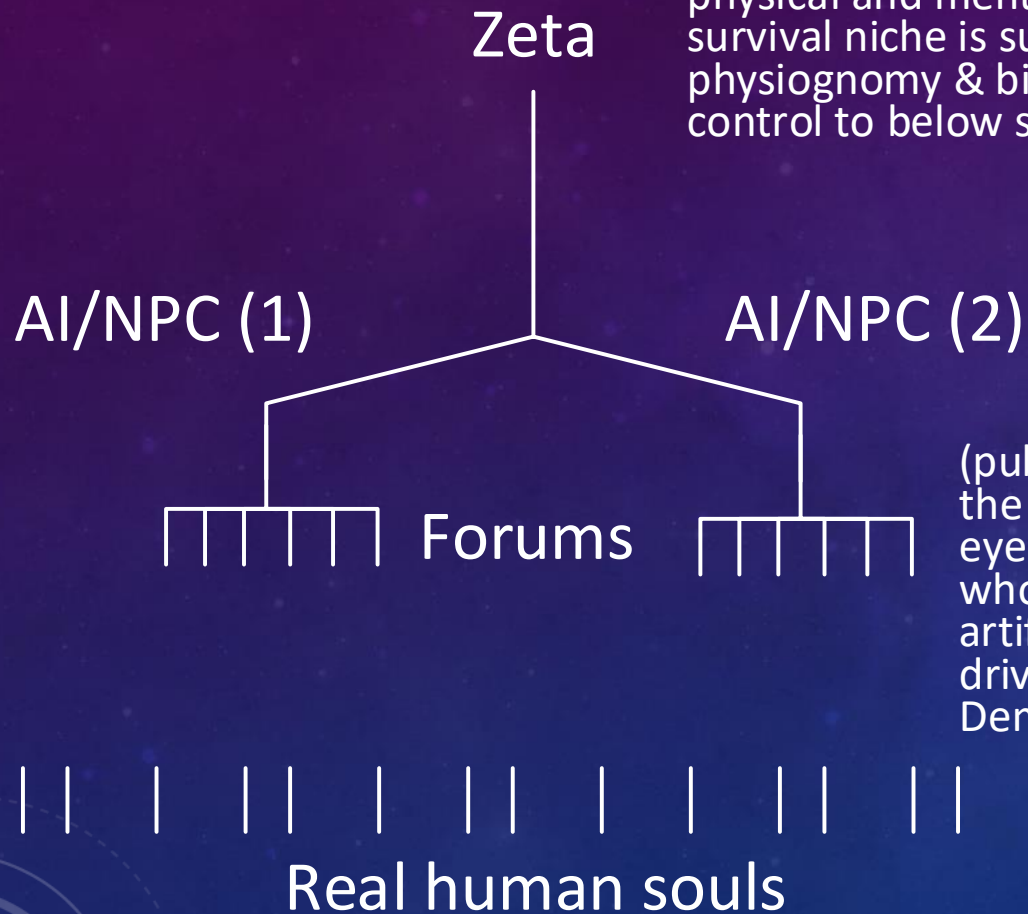

# CNC STRUCTURE

(noetic parasite: extremely cowardly, weak, disgusting in both physical and mental nature, but very cunning/smart - parasitical survival niche is survival; difficulty incarnating with full human physiognomy & biological sex; can exert coordinated “off world” control to below structure via collective subconscious means)

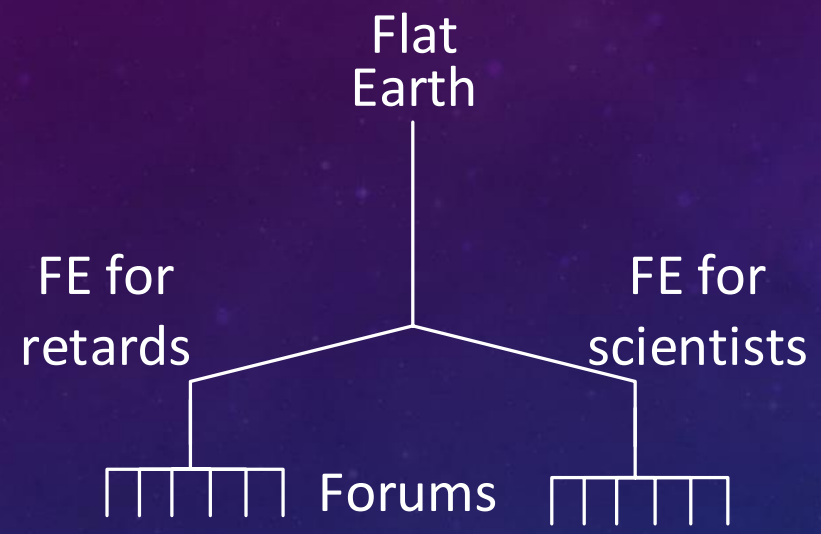

(public leader & influencer personalities: religious, political, scientific, entertainment, news media, military)  
(very highly tuned AI’s hence difficulty interacting with normal people – little to no access by real humans due to classic NPC behavior; provide façade of legitimacy )

(public masses: groupthink; believe the TV; support the agenda and the system; hive mind; no intuition, internal monologue, or mind’s eye; believe everything “official”; consensus truth; every-day people who seem quite real, but are infected with the parasite, or are artificial “souls” simply *not real* people; unable to reason; emotion-driven; highly programmable; support AI/Zeta agenda through Democracy; NPC-like – repeat what they’re told; “hopelessly inured”)

(targeted for slavery, takeover; independent operators; generally not aware; suspended disbelief – believe the world they’re shown, and believe what Forum-members do is simply what other normal humans might do; capable of spiritual awakening/unplugging from system)

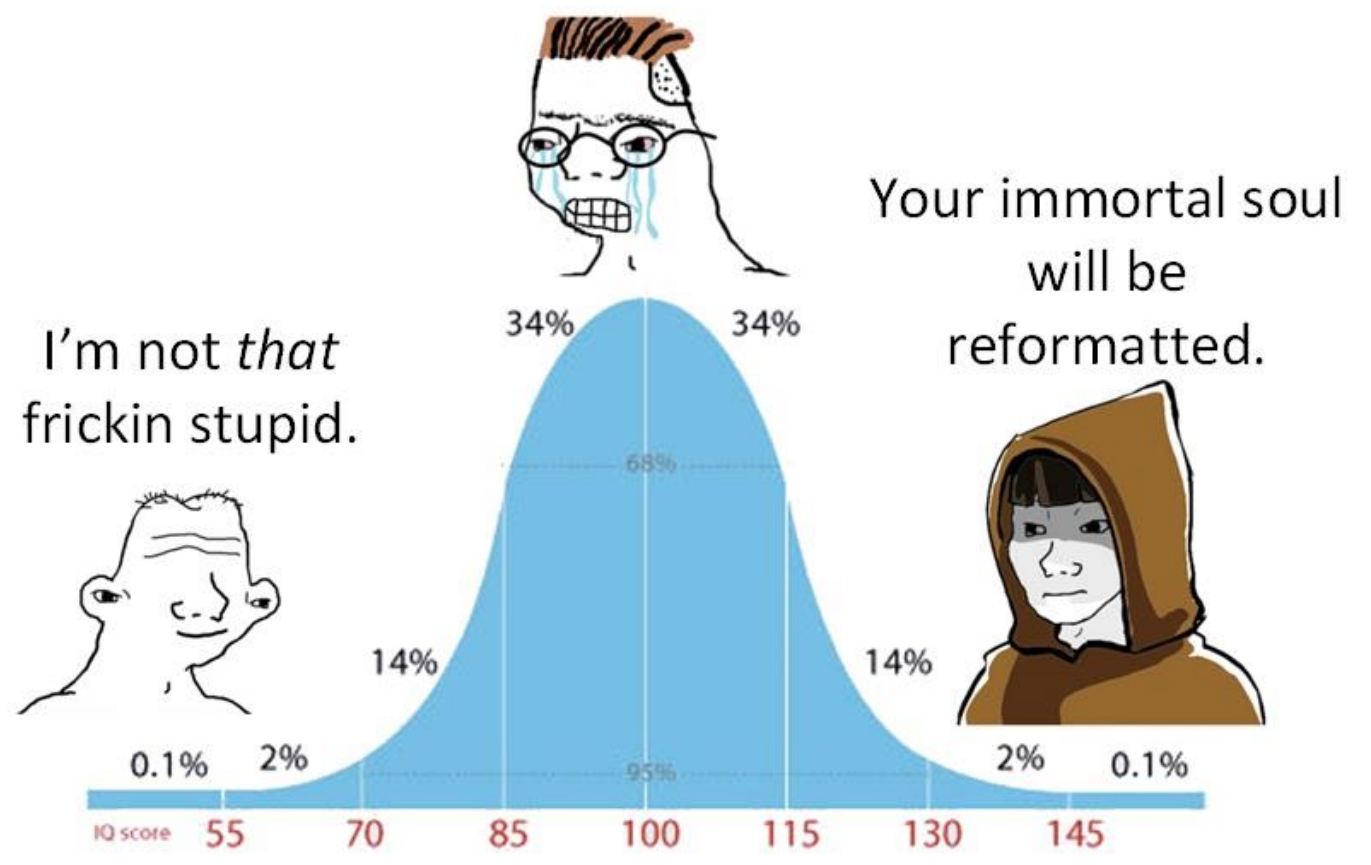

# Full-Retard Pincer Maneuver

Tier 1: USE YOUR SENSES - NO CURVATURE!

Tier 2: We can mathematically average sunlight over the entire Earth's surface by approximating it as a plane facing the Sun!

# REVERSE FULL RETARD PINCER

- It has become clear that the flat Earth psy-op is attempting to be thrust from two ends of the IQ spectrum: the low IQ retard, and the high-IQ intelligentsia
  - The maneuver is failing because
    - our low-IQ retards aren't falling for it – our retards are better than that
    - our geniuses can see how pseudoscientific the F.E. climate change psy-op is
  - The maneuver is only capturing the midwits, and has therefore put itself into its own pincer death trap
  - But...if the midwits control the system, and the low-IQ and geniuses are outnumbered...the midwits may win anyway
